Continuation of Substance of Interview including description of the general nature of what was discussed: In view of the above interview, changes were proposed and made to claim 10 to make the claim more clearer and consistent with the independent claim. Also, the correction was made to show a more definitive correlation between the prevention of the creation of a pressure head within a tube and the integration of the bowl fill valve being in a portion of the toilet fill valve. See the accompanying "Examiner's Amendment" for greater details.
